RELEVANT EXPERIENCE

ADGO Studios | Co-founder, Web Development & Digital Systems | 2026 - Present

- Build and deploy responsive business websites and lead-intake experiences; handle discovery, integrations, testing, and client feedback.
- Configure CRM forms, appointment scheduling, follow-up workflows, and the Luna AI receptionist. Produce advertising creative using Higgsfield, ElevenLabs, and HyperFrames.

SELECTED INDEPENDENT & CLIENT PROJECTS

Raidio | Next.js, TypeScript, Supabase, PostgreSQL

Built an AI radio application with station programming, synchronized shared-playhead listening, generated audio workflows, and separate draft and published station rundowns.

Jump Trainer | Python, NumPy, MediaPipe, WebAssembly

Developed on-device jump-video analysis using pose tracking, takeoff and landing detection, flight-time physics, and confidence scoring. Video processing stays in the browser.

Aurora Pool & Spa | Astro, TypeScript, Cloudflare

Delivered responsive service pages, local coverage information, optimized client photography, and CRM-connected contact paths through ADGO Studios.

PSYCH! | Next.js, Supabase, AI-assisted animation

Created an original science-fiction universe, built its episode-reading platform with a timeline and spoiler controls, and released an animated first episode.
