RELEVANT EXPERIENCE

ADGO Studios | Co-Founder - Web, AI and Marketing Systems | 2026 - Present

- With a business partner, launched ADGO's own bilingual Meta Ads campaign for Facebook and Instagram in the Los Angeles / San Fernando Valley market.
- Built and configured GoHighLevel CRM, website contact forms, consultation booking, automated acknowledgments, and Luna, an AI phone receptionist.
- Developed a repeatable, automated Higgsfield ad-creative workflow; work across AI concepting, short-form video, messaging, design and business websites.
- Work directly on client discovery, responsive websites, hosting, forms and service presentation; built Aurora Pool & Spa using Astro and Cloudflare.

Independent Software & Creative Projects | Builder / Creator

- Built web and mobile products using Next.js, React, TypeScript, Python and Supabase, including Raidio, Snapdex and a video-based Jump Trainer.
- Created PSYCH! Open Source: a fiction and publishing platform with episode routes, archive, timeline, progress tracking and spoiler controls.

The Home Depot | Hardware Sales Associate | 2025 - Present

- Help customers troubleshoot hardware, electrical and plumbing questions; explain options clearly in English and Spanish.

Earlier roles | Manufacturing, field service, construction support

- Hands-on work involving customer service, following procedures, resolving issues and adapting to unfamiliar tasks.
